Other: React, Next.js, Git, GitHub, GitLab, Figma

WORK EXPERIENCE

360 Eğitim | Full Stack Developer · Remote · Jan 2026 – Nov 2026

- **50,000+ users in 30+ institutions:** wrote most of the two 360 Hızlı Okuma Nuxt 3 apps (user, admin) and the Go API in a 2-person team.
- **14 user roles** with role-based access, enforced in route middleware and again on the backend.
- **22 websites, one codebase:** 127 reusable modules in 269 variants, kept in sync by a CI check.
- **Store, cart and payments** end to end from Nuxt to Go, plus a theme customizer and TR/EN/AR with RTL.

Fair Teknoloji | Frontend Developer · Hybrid · Jul 2025 – Nov 2025

- **All 4 front-ends** of the Adil Pazar marketplace (6-person team): Nuxt 3 storefront, admin, merchant and vendor panels (Vue 3, TypeScript, Vuetify, Pinia).
- **SSR storefront:** filterable catalog, product and account pages (orders, returns, favorites), Turkish and English, sitemap and SEO meta.
- **Panels:** product, category and site content (CMS) screens for admin, merchant and vendor users.

Hay Teknoloji ve Yazılım A.Ş. | Full Stack Developer · Remote · Feb 2023 – May 2025

- **Vue and Nuxt apps** for several clients, from setup to production, with responsive layouts, SEO and i18n.
- **Go REST APIs** on PostgreSQL for client projects, with authentication, role-based access and Docker deployment.
- **yarisma.online:** server-rendered foundation website in 3+ languages, with SEO and the online application form.

Hay Teknoloji ve Yazılım A.Ş. | Intern · May 2021 – Sep 2022

- Worked on client projects across the stack: Vue.js interfaces and Go REST endpoints on PostgreSQL.
